

Briz for Consumers

As consumers, we're all passionate about helping and supporting our local communities. We want our local businesses to succeed and for them to be honest. We built Briz to enable consumers to easily connect and interact with small business. Briz powers consumers to keep up, communicate, organize, and *experience* their favorite businesses in their local communities. You can search and find businesses wanting to serve your unique and individualized needs.

When building Briz, we thought, where could we not just find information, but rather where could we interact with local businesses with just a single click? We couldn't find it anywhere online. Briz is passionate about giving consumers an online platform to experience that added-value and special touch only their local businesses can offer. Everything built on Briz has the consumer in mind.

We pride ourselves in consumer safety and putting you in charge of what you want to see.
Briz is for you.

Key Features & Benefits:

- In today's world, we demand businesses that will go the extra mile. We're looking for business to extend their in-store courtesy no matter where we are. Interact with businesses online on Briz.
- You can see reliable content from local businesses themselves. You can always count on getting the latest information.
- Our search was built with the efficiency of the consumer in mind. See the latest local news, events, and coupons within any given search criteria you select.
- Search businesses wanting to directly help you. Chose your demographic group to refine a search that better pertains to you.
- Only see the information you want. Save your favorite businesses to see their latest info with just a click of a button on your Dashboard.
- You can send messages and get the answers you want. You can send a message to several businesses at once and compare offers.
- See what others have to say, you can read feedback or post some yourself.

You can learn more by visiting our [About Us](#) and [Learn More](#) pages.
